

mamava®

At [Mamava](#), we invented the world's first freestanding lactation pods to provide private spaces for expressing milk at work or on the go. Our pods are designed for parents' comfort, as well as quick implementation, easy cleaning, and flexibility for facilities. They're a faster and more cost-effective way to comply with lactation accommodation laws than new construction.

Mamava's lactation solutions are designed for every place and situation. Our free app helps facilities streamline access and breastfeeding parents find thousands of lactation spaces wherever they go.

We hope you will join us in our mission to create a healthier society through infrastructure and support for breastfeeding.

Sascha Mayer and Christine Dodson
Mamava Cofounders

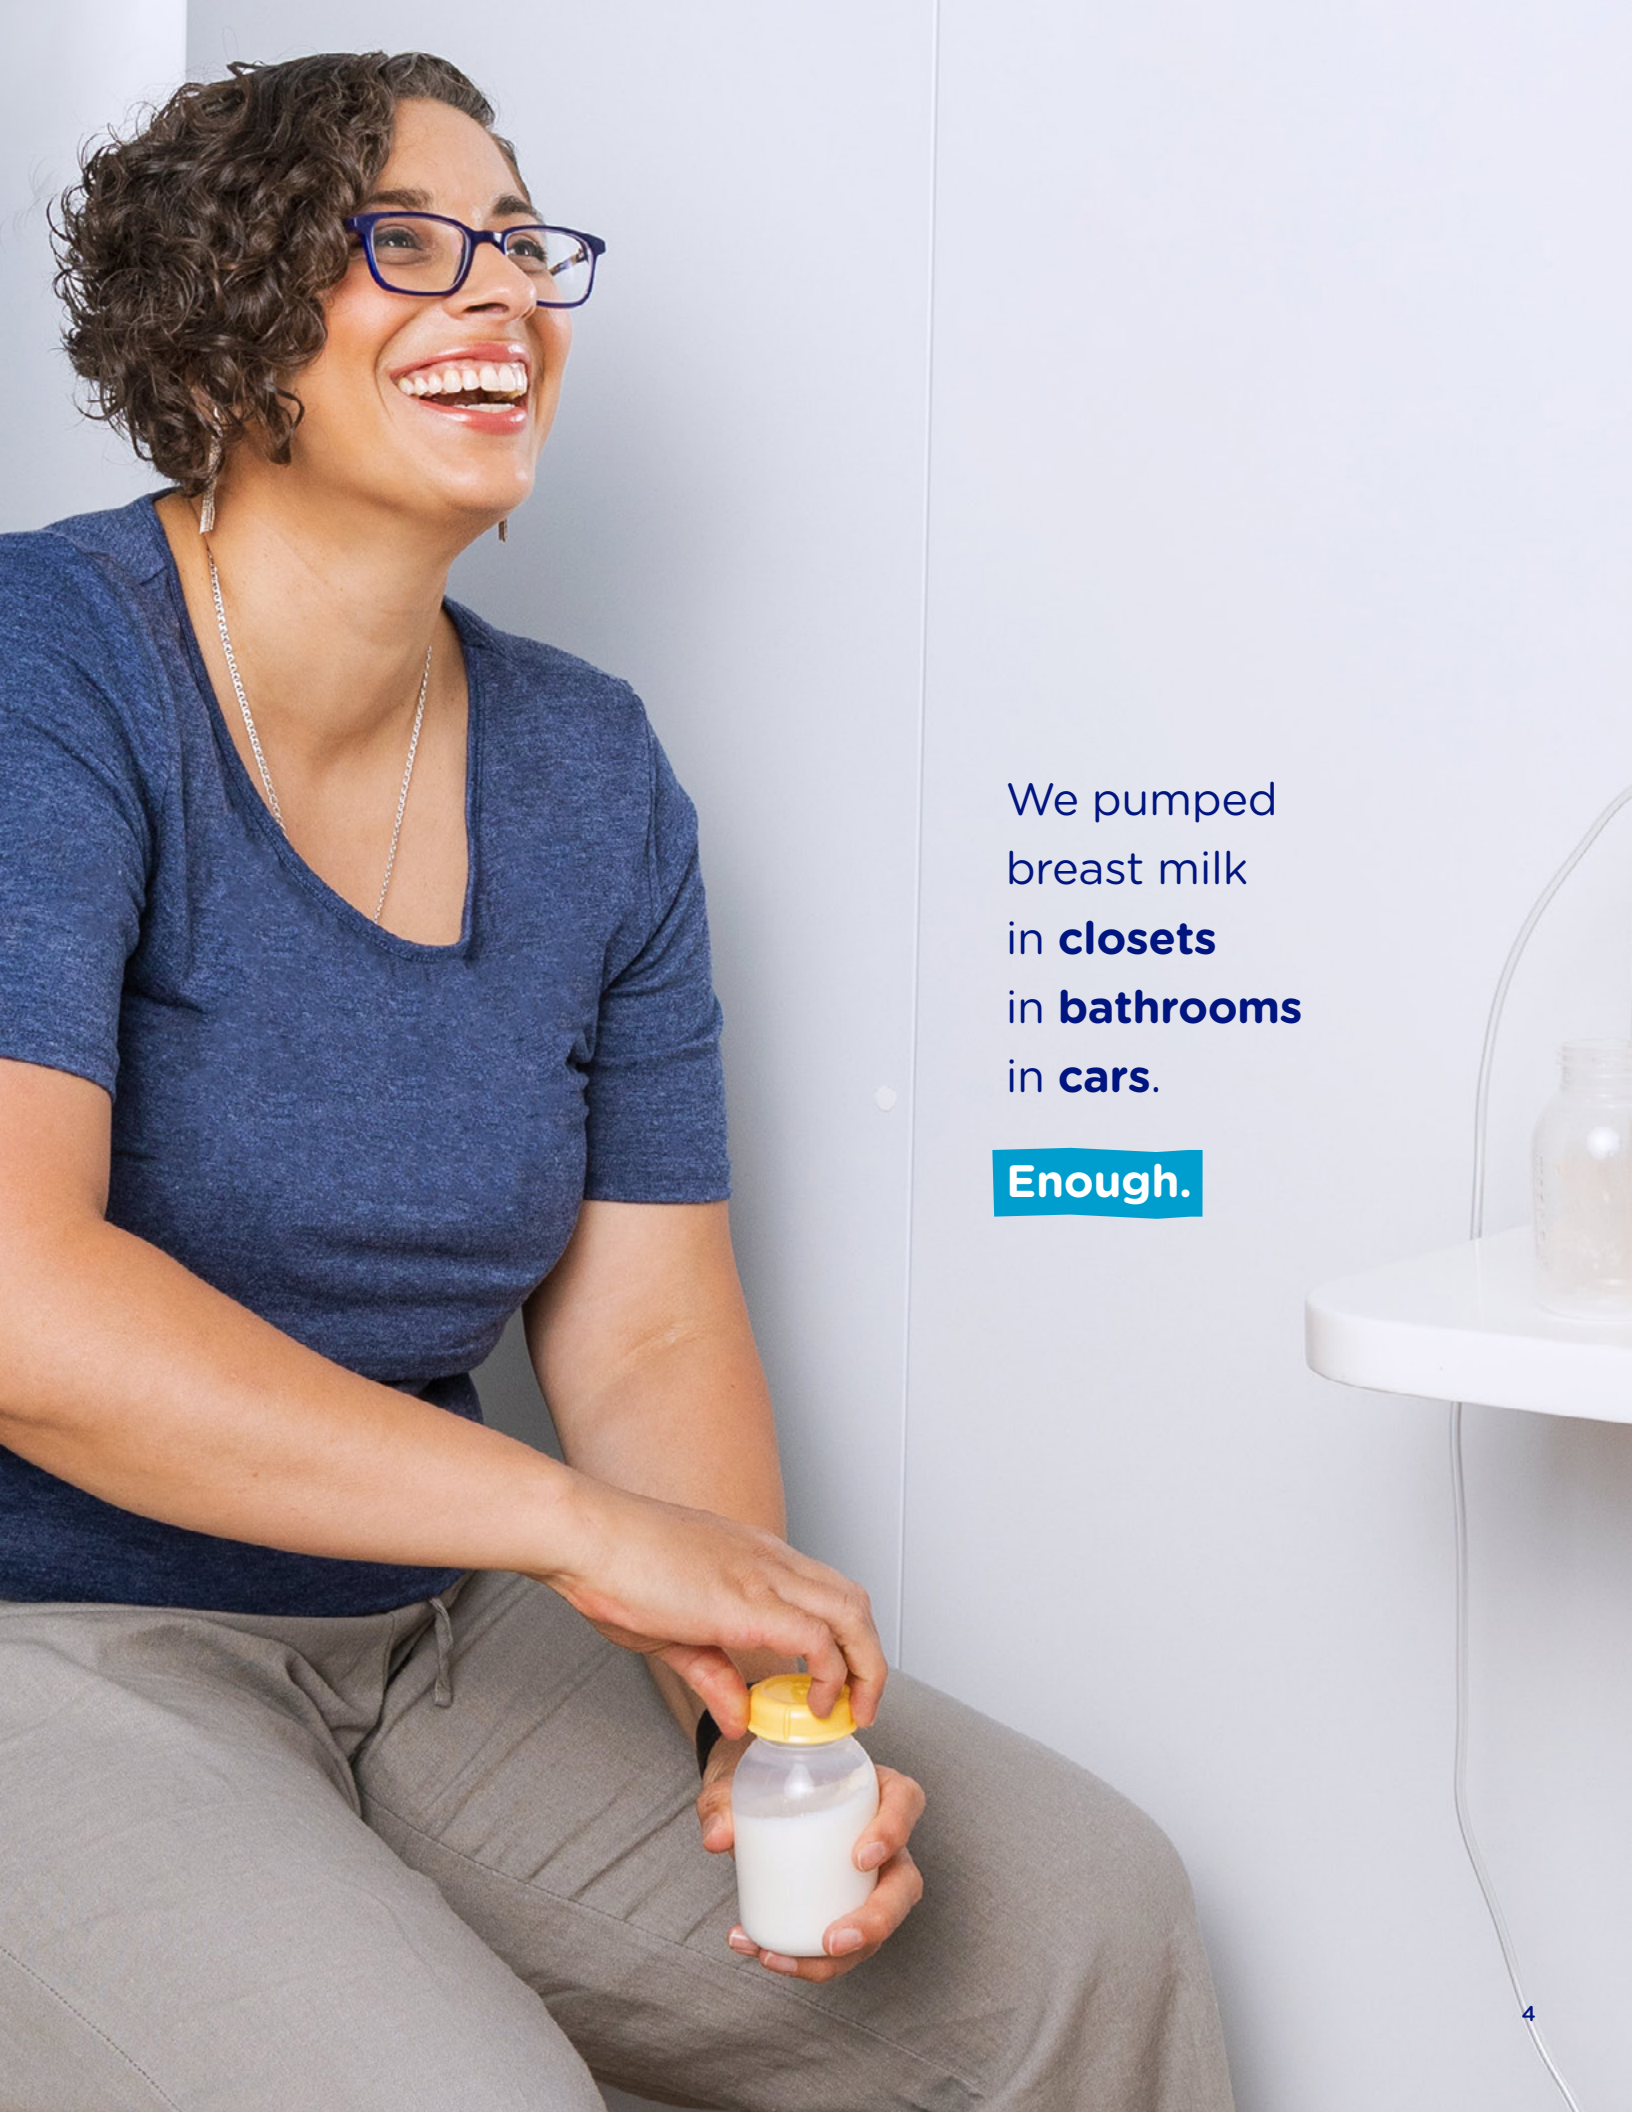

WE LOVE OUR CUSTOMERS

Service + Support	31

We pumped
breast milk
in **closets**
in **bathrooms**
in **cars**.

Enough.

Why Provide Lactation Support?

It's the law.

The PUMP Act, part of the federal Fair Labor Standards Act (FLSA), requires employers to provide a private non-bathroom space for breastfeeding employees to pump. Some states have **additional requirements**.

It has public health benefits.

Breastfeeding has health benefits for both mothers and babies. Employees who receive break time and a private space to pump are more than twice as likely to be breastfeeding at six months.³

It's good for business.

In one study, 83 percent of employees felt more positive about their company after lactation benefits were offered.¹ For every \$1 spent on wellness support programs (including lactation spaces) employers see \$2-\$3 return.²

It contributes to an inclusive culture.

Mamava lactation solutions are a strong symbol of your organization's support for breastfeeding parents and help create an inclusive environment.

1. Rocheleau et al. (2019). Promoting Worker Well-Being Through Maternal and Child Health. Centers for Disease Control and Prevention. 2. Tuttle, C.R. & Slavit, W.I. (2009). Establishing the Business Case for Breastfeeding. *Breastfeeding Medicine*. 3. Birth data. (2022). Centers for Disease Control and Prevention.

How many spaces do you need?

The National Institute of Health (NIH) recommends six lactation spaces for every 1,000 female employees, two for 250 female employees, and one for 100 employees.

A parent typically pumps every 3-4 hours for ~30 minutes.

Pumping parents are often on the same schedule.

Using a lactation space far away is stressful and inefficient.

Why mamava?

Intentional design

Mamava's products comply with lactation laws, including the PUMP Act, create operational efficiencies for facilities and provide the comfortable, private environment breastfeeding parents need.

Comprehensive offering

From freestanding pods to our Mamava app-enabled smart lock, we have a solution for every space. Plus, custom graphics, seismic kits, service plans, and more.

Consultative approach

Mamava has helped thousands of customers create lactation programs. Our experts can help you build the best program to minimize risk, delight parents, and see ROI.

Quick implementation

Mamava's ready inventory and easy procurement process—plus our fast-track delivery options—means you can have a space mom-ready in weeks.

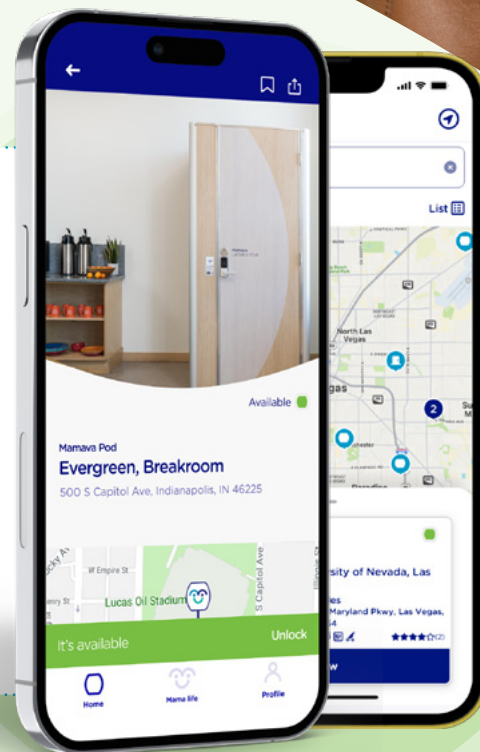

Ongoing support

Preventive maintenance visits.
A dedicated, responsive service team.
PR and social media amplification.
Data and usage reports for scalability planning. We're here for you.

Smart Access

Our seamless technology integration between Mamava pods and VaRoom smart locks and the Mamava app removes friction for facilities and parents by enabling autonomous access while securing the space against unintended users. The app helps parents find lactation spaces across North America and connect with breastfeeding support. As a pod or VaRoom owner, you decide [how your space shows up](#) on the app.

“Having a clean, designated place to pump makes it easier to be a working mom.”

Amanda Uster, Paramedic
Fire Department of New York

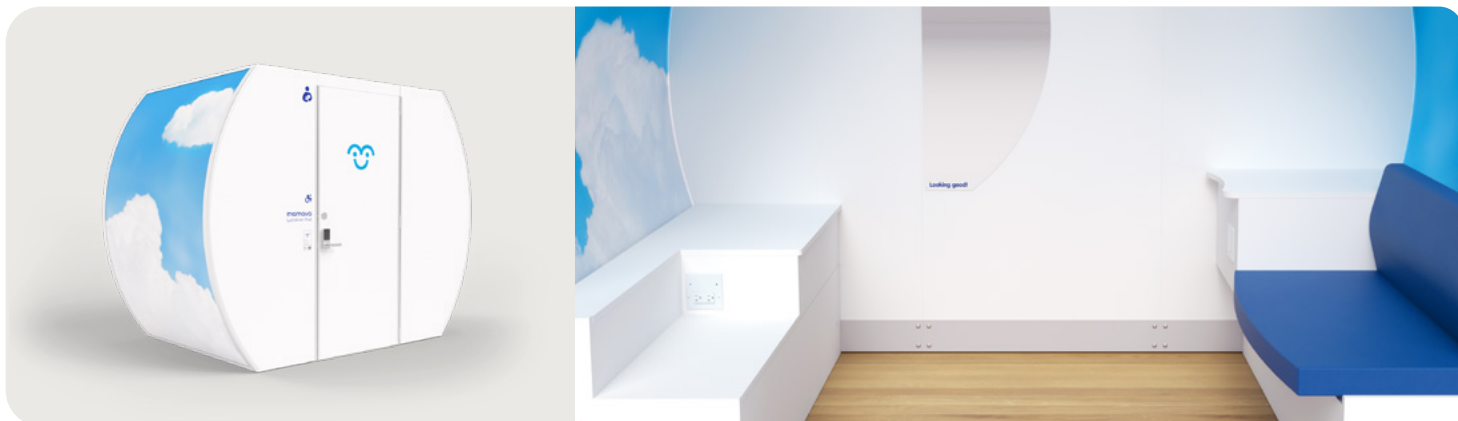

**Designed for breastfeeding parents.
Built to make life easier for facilities.**

mamava Lactation Pods

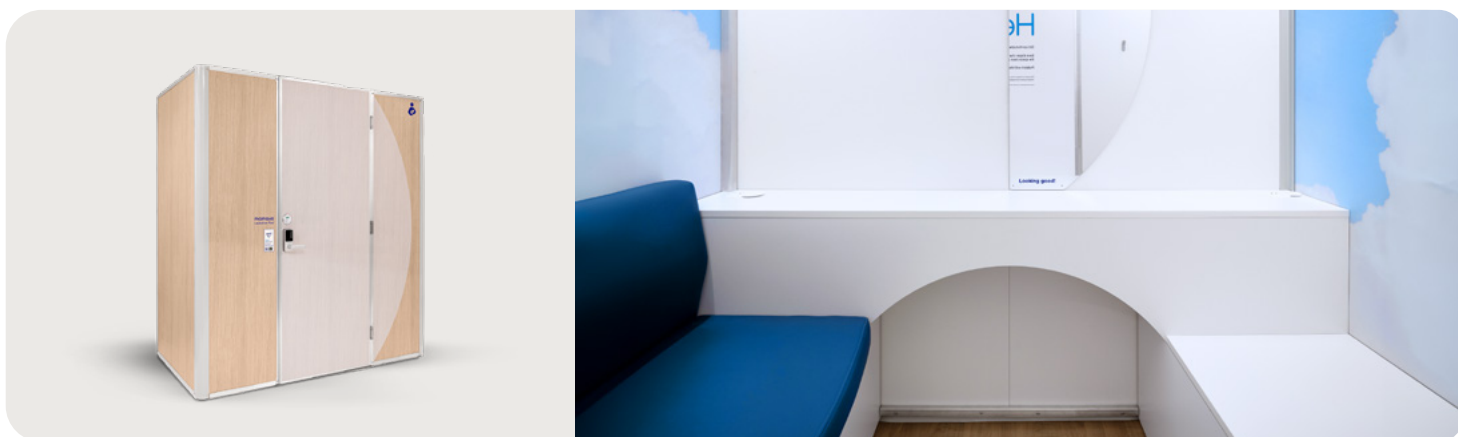

XL  Smart Access

50 sq ft, 700 lb • 9'3" W x 5'6" D x 7'7" H* • 35" door swing

Flooring
Maple (vinyl)

Dimensions

Exterior: 9'3" W x 5'6" D x 7'7" H
(Includes pod and antenna height)

Interior: 50 sq ft; 8'9" W x 5' D x 6'8.5" H; 700 lb

35" door swing (recommend 60" clearance in front of the door and 18" clearance on the latch side)

Shipping crate: 7'10" W x 4'7" D x 5'11" H; 1,050 lb

Minimum 8'4" ceiling clearance required for assembly

Exterior materials + features

Front and back wall panel made of aluminum composite material (ACM) with a foam core optimized to reduce material consumption and waste

Curved side panels made of scratch-resistant expanded polyvinyl chloride sheet (EPVC)

Front and side direct-print graphics (customization available)

Perforated aluminum roof panel with aluminum composite material (ACM) frame

Interior materials + features

19.5" W x 29" D commercial-grade laminate shelf with one (1) dual-receptacle outlet with one (1) USB-A port and one (1) USB-C port

30" W x 21" D commercial-grade laminate shelf with one (1) dual-receptacle outlet for compact fridge (20" W x 19" D x up to 25" H) or storage

Built-in shatterproof mirror made of reflective acrylic

41" W x 20" D contoured ergonomic seat (with Matrex internal support system) made of polyurethane fabric. 300 lb weight limit

Two (2) UL Listed ventilation fans provide 42dB of white noise and are capable of air change rates of ≥ 35 ACH

Two (2) stainless steel coat hooks, each holding up to 15 lb

Four (4) 3' occupancy-activated UL Listed LED strip lights, two (2) activated by motion sensor, two (2) controlled by switch

Anchoring lock for multi-user breast pump

Vinyl covered aluminum frame floor base with ABS underlayment

Deadbolt lock with occupancy indicator

Electrical

UL Listed components

10' GFCI-protected power cord (exiting at the bottom of the back right wall panel) occupies one standard 20A 120V outlet

Requires a 20A circuit and draws approximately 6.5A

Mobility

Four (4) retractable feet assist leveling the pod up to 1"

Four (4) built-in caster wheels for relocation

Disassemble and store as needed

Testing + safety

ETL certified to UL STD 962 and CSA STD C22.2#203

ASTM E-84 Flame Spread Rating is Class A for all external materials (walls and ceiling)

Meets NFPA 13 Section 9.3.10 Standards

Shelf and seat base meet UL Greenguard Gold rating

Floor meets GreenAir and FloorScore formulation for low VOCs and FMVSS 302 for flammability

Chair fabric is free of PVCs and VOCs and compliant with California Technical Bulletin #117-2013 for flammability

Seismic bracketing kit available

Accessibility features compatible IAW 2010 ADA Standards:

Mirror placement meets 603.3

Clear turning space meets 304.3.1 (circular space) and 304.3.2 (t-shaped space with knee clearance in accordance with 306.3)

Clear floor and ground space meets 305 (parallel or straight approach)

Door clearance width meets 404.2.3

Door maneuvering clearance meets 404.2.4

Door threshold meets 404.2.5

Door hardware meets 404.2.7

Grab bar sized and spaced to meet 609.2.1

Pod is designed for the perception of both audible and visible alarms to meet 215

Door closer arm meets 404.2.8 and 404.2.9, closing speed and opening force respectively

Light switch meets 308.2.1.

California Building code compliance:

Door hardware meets CBC 11B-404.2.7

Access technology

Access with Mamava app, numeric keypad on external lock, or key

Mamava's Smart Access technology for easy wayfinding, autonomous access, occupancy status, duration of use, and vacancy alerts

ZTU (Zero Transmission Unit) available for high security areas

Usage data available with the purchase of a Mamava Service Plan

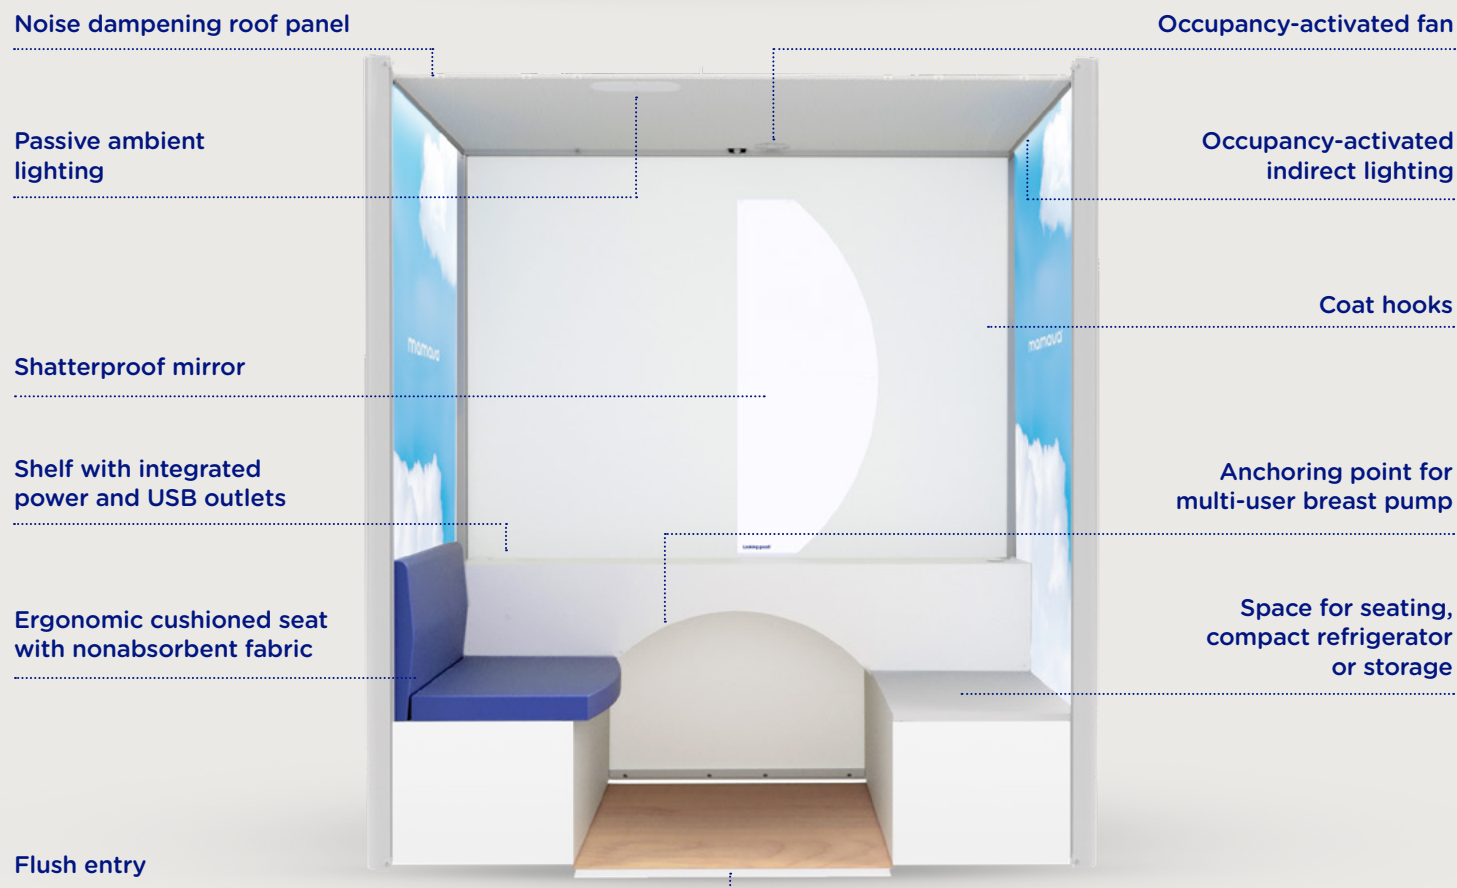

“Mamava is the perfect solution to real estate challenges on our medical center campus.”

Barbara Ashby, Manager, WorkLife and Wellness
University of California, Davis

mamava® VaRoom

A smart lock that integrates with the Mamava app to streamline lactation room access for facilities.

Includes

- ✓ App-enabled smart lock
- ✓ Deadbolt with vacancy indicator
- ✓ Physical keys + keypad codes
- ✓ USB micro cable
- ✓ Access signage (exterior + interior decals)
- ✓ Lock installation kit
- ✓ Quarterly data reports

Unlock frictionless lactation room management

- 

Streamline operations with autonomous lactation room access.
- 

Customize how your room is seen and discovered by Mamava app users.
- 

Secure your lactation space from unintended users.
- 

Minimize legal risk, attract and retain talent, improve guest experience.
- 

Tap into the benefits of Mamava's national breastfeeding network.
- 

Gain insights to inform cleaning, maintenance, and scalability planning.

Specs

Power:	4 × AAA Batteries (Micro USB cable for backup power)	Installation:	2 hours, installation available
Battery life:	10,000 locking/unlocking events	Door + frame material:	Wood or metal
App-enabled entry:	Bluetooth connection	Door thickness:	1 3⁄8" - 2 1⁄2"
Keypad entry:	Up to 8 custom codes	Backset:	Adjustable, fits 2 3⁄8" or 2 3⁄4"
Physical keys:	2 lock keys, 1 deadbolt key	Door jam gap:	Less than 1⁄4"
Material:	304 stainless steel + zinc alloy	Door lock type:	Cylindrical (mortise not compatible)

“Working with the Mamava team was a pleasure—they were flexible, responsive, and made the installation process feel seamless.”

Morgan Taylor-McFadden, Director
Boston Healthy Start Initiative

From Purchase to Placement: The Process

1 Get in touch

Submit a request for information and a Mamava Account Executive will reach out to learn about your facility, make recommendations for the Mamava product to fit your needs, and share pricing.

2 Place your order

Select products—along with graphics and upgrades for pods—then we manufacture your order at one of our U.S. facilities. Pods and locks ship in as little as two weeks. (Graphics add additional production time.)

3 Find a space

For pods, be sure the space has a flat surface, ample room, privacy from overhead, and easy access to an outlet. It should also be an area that's convenient for users and serviced by an HVAC system. See p.28 for VaRoom smart lock door compatibility.

4 Receive your product. Pods will arrive unassembled in cardboard boxes banded together on a pallet. **Delivery is to the first threshold.**

XL Shipping Crate: 7'10" W x 4'7" D x 5'11" H | 1,050 lb

Flex Shipping Crate: 4'7" W x 7'10" D x 3'10" H | 755 lb

Solo Shipping Crate: 7'10" W x 4'7" D x 2'7" H | 550 lb

VaRoom Smart Lock (Self Installation)

Your parcel will arrive through UPS Ground shipping.

VaRoom Shipping Dimensions: 9" W x 13" D x 8.5" H
